

Pledge to the Families and Businesses of Pennsylvania

I pledge that I will lead the fight to pass a robust energy savings policy without delay, specifically House Bill 2200, and I further pledge to have that legislation to the governor's desk before the November 2008 election. My intent is to exercise leadership to provide relief from high electricity bills to all Commonwealth families and businesses.

I further promise that I will not let the citizens of Pennsylvania be held hostage by legislative inertia at a time when each and every family and business is suffering from out of control energy bills, with no end in sight. HB 2200 provides important relief from high electricity costs that our citizens need, and passing it will be my solemn duty during this legislative session.
